The barcodes a workshop, a warehouse and a till read

Each box below is one module to the point, so every bar edge lands on a whole pixel of a printer. Under each code is what a scanner reads back from it.

Code 39, the workshop label: BAY 12-A

Code 39 carrying its modulo 43 check character: 159F

Code 93, the same text in half the room: BAY 12-A

ITF-14, the outer case a shop takes delivery of: 00012345678905

Codabar, the blood bag and the borrower's card: A31600$D

UPC-E, the small North American package: 01234565

A magazine, its issue number in a two-digit add-on: 9780201379624 53

A book, the price its publisher suggests in a five-digit add-on: 9781234567897 51999

GS1 DataBar, the loose cut of meat and the small pack: 00012345678905
