

Without break points: the paths run past the column's edge.

Send each request to
/api/v2/organizations/documents/render,
then read the read-only
copy from
/api/v2/organizations/documents/preview
on the rate-limited tier.

Breaking after slash and hyphen: the paths and compounds wrap.

Send each request to /api/
v2/organizations/
documents/render, then
read the read-only copy
from /api/v2/organizations/
documents/preview on the
rate-limited tier.
