Tender pack: three lots

Every lot of this tender travels in the pack as a file of its own. The document states the columns the files are shown in, what each file holds for each of them, and that the list is sorted on the day it was sent, newest first, then on the lot. A reader may correct the name of a lot, and the groundworks folder is shown by a picture of its own.

File	Lot	Sent	Total
lot-a.xml	Earthworks and site clearance	2026-07-14	EUR 18,400.00
lot-b.xml	Drainage and services	2026-08-03	EUR 9,250.00
lot-c.xml	Surfacing and lining	2026-06-28	EUR 31,700.00

A reading software that shows a portfolio lays the three files out in these columns. One that does not still opens the pack and lists the files, which is why they are named on this sheet too.

What the pack states

Shown as rows, opening on lot-a.xml, sorted on the column sent, newest first.

Files sent on the same day then follow the column lot, from A to Z.

The window is split horizontally, the bar first standing at 40% of it.

Columns: Lot (words), editable; Sent (a moment); Total (a number); File (the file name); What it is (what the file is); Changed (when it changed); Size (its size), hidden.

Folders: Groundworks, shown by its own picture (lot-a.xml, lot-b.xml); Surfacing (lot-c.xml).

lot-a.xml: Earthworks and site clearance; application/xml; its source; carried, 179 bytes, changed 2026-07-14.

lot-b.xml: Drainage and services; application/xml; its source; carried, 170 bytes, changed 2026-08-03.

lot-c.xml: Surfacing and lining; application/xml; its source; carried, 170 bytes, changed 2026-06-28.

plans/site-plan.pdf: The site plan, kept beside the pack; no media type; a supplement to it; kept beside the pack at plans/site-plan.pdf.
