Rich text: styles, sizes, underlining, colour

The amount due is 1 240.00 EUR, payable within thirty days. The balance carries interest at the statutory rate from the day it falls due, and no reminder has to be sent for it to do so.

A line is as tall as the largest of the styles standing on it, and no taller.

A run can carry its own colour, set apart from the black around it.

A word may change style in the middle: underlined is still one word, and is never broken at the join.

The small print sits in small type, flush right, below the body of the text.

A heading set hollow, or thickened without a bolder font

A rule can sit where it is told: a heavy underline clear of the descenders, or ~~a hairline~~ through the letters.

A reference broken after its slashes, and cut where nothing else will do:

hqf-pdf.com/examples/
rich-text/overlong/
ABCDEFGHJKLMNPQRSTU-
VWXYZ0123456789

This paragraph is centred, across and down, in the box drawn around it.

2 lines, 26 pt tall together, the widest 341 pt wide.

Prices set in two styles, lined up on their decimal points:

Binding	18.50
Cover, two colours	1240.05

A justified paragraph can choose how its closing line is set: this one fills every line but the last to both edges, and sends the last one flush right.

Leaders and line height

A table of contents: dots lead from each title to its page number, set in the size of the title they follow.

Styles within a paragraph..... 3
Rules, outlines and colour..... 8
Tab stops and leaders..... 15

The same three lines twice. On the left, each line is as tall as the largest figure on it; on the right, as tall as the label it opens with.
