# One stamp, four boxes

A wide box: the line runs up its diagonal, which is nearly flat.
Turned 17°.

A tall box, stamped the other way.
Turned -60°.

Flat across the middle, and wide enough that the width is what binds.
Turned 0°.

A longer word in a shorter box: the size follows, nothing is cut.
Turned 13°.

Page two is even: the first watermark lies across it, at 96 points.
